## Ohio 4th grade math standards checklist

Education impacts how our children grow and become prepared for success in college or on the job. To improve that education, Ohio's students are learning under standards, also known as the Common Core State Standards, were developed collaboratively by teachers and other educators from Ohio, along with many states. Teachers and education leaders also worked together to develop Ohio-specific standards for science and social studies. Ohio's Learning Standards are designed to challenge and motivate our students, preparing them for success in college, on the job, and in life. Q: What are Ohio's Learning Standards? A: In 2010, the Ohio State Board of Education incorporated the Common Core State Standards in mathematics and English and state-developed standards in science and social studies into the state's newer learning goals for the knowledge and skills all young Ohioans need to succeed in our competitive economy. A: The Common Core State Standards, incorporated into Ohio's Learning Standards by Ohio's State Board of Education in 2010, establish clear expectations about what students should know and be able to do when completing grades K-12 in mathematics and English Language Arts. They are essential to preparing our children for success in college, careers, and life. Standards Revision Process The Ohio Department of Education is currently in the process of updating Ohio's Learning Standards. In 2016, Ohio's English language arts and mathematics standards were reviewed by the public and revised changes, made by education Committees as well as the State Board of Education. A similar review process is currently underway regarding Ohio's science, social studies and financial literacy standards. More information and a timeline on this process can be found here. Show Me the Standards One way to consider the standards is to ask: Here are a few of the standards, provided by the Ohio Department of Education, so that you can answer that question: Math: Know number names and the count sequence (Kindergarten) Count to 100 by ones and by tens. Count forward beginning from a given number within the known sequence (instead of having to begin at 1). Reading: Key Ideas and Details (Fourth Grade) Refer to details and examples in a text when explaining what the text says explicitly and when drawing inferences from the text. Determine the main idea of a text and explain how it is supported by key details; summarize the text. Explain events, procedures, ideas, or concepts in a historical, scientific, or technical text, including what happened and why, based on specific information in the text. Reading: Craft and Structure (Eighth Grade) Determine the meaning of words and phrases as they are used in a text, including figurative and connotative meanings; analyze the impact of specific word choices on meaning and tone, including analogies or allusions to other texts. Compare and contrast the structure of two or more texts and analyze how the differing structure of each text contributes to its meaning and style. Analyze how differences in the points of view of the characters and the audience or reader (e.g., created through the use of dramatic irony) create such effects as suspense or humor. Ohio Standards 101 Resources Ohio's Learning-Standards Revision. The State Board of Education has adopted learning standards in many areas: mathematics, English language arts, science, social studies, world languages, fine arts, technology, physical education, and financial literacy. In 2016, the Ohio Department of Education students need to know and be able to do: Model Curricula. Offer guidance to local educators as they teach with the standards and create aligned assessments Heaving and Development Standards — Ohio ohio.gov/wps/portal/gov/site/residents/resources/early-learning-dev-standards Early Learning and Development Standards On October 9, 2012, the State Board of Education adopted Ohio's Early Learning and Development Standards in all domains of school readiness to reflect the comprehensive development Standards | Ohio ... www.ohreadytoread.org/ohiosearly-learning-and-development-standards Ohio's Early Learning and Development Standards (ELDS) describe key concepts and skills that young children and to foster their learning in five essential domains of school readiness.
